FEEDING DIRECTIONS:

Provide Harvest Salt as the only source of free choice salt in copper and selenium deficient areas. Expected consumption for 1,100 lb. mature horses is 1 oz. per day for maintenance and 1.5-2.5 oz. per day for horses in training.

Also provide free choice, the correct calcium and phosphorus mixture according to your hay type. Use Grass Plus® Mineral & Vitamin Mix with grass or mixed hay/pasture; or Alfa Plus® Mineral & Vitamin Mix with alfalfa hay.

Please store in a cool dry place
